Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences

The faculty of the institution always use various methods for enhancing the learning experience. They use various ways wherever and whenever necessary for teaching- learning and evaluation of the students.

Generally, theoretical lecture method is most commonly practiced method useful for large group. The faculty explains points by giving introduction and salient features of the topic. This method is predominantly used at undergraduate level. For B. Com students computer assisted method is used. With lecture method the following methods used for enhancing learning experience.

Experimental Learning

In the last academic session classes are conducted online as well as offline mode. It was an experiments to students and teachers. Zoom, Google Meet, Jio Meet, Whatapps etc are used for taking online classes. Through NSS activity the students learn the actual life experience.

Participative Learning

In participative learning the learner take parts in learning process.

- Question answer session
- Participation in events
- Seminars/ Presentations

Problem Solving

- Activity and assignments
- Students are encouraged to take parts in various debate competition, essay competitions, quiz competition, competitive exam, education, workshops.
- Group Discussion
- Library book exhibition
- Students learn material better when they engage it actively rather than absorb it passively.
